

A cost effective, heavy duty system, the Essentials Post system sets a new standard for Netball posts.

- + Utilising a 75mm steel upright for increased strength over other systems in exposed environments
- + Posts are then Hot Dip Galvanised for ultimate rust resistance, and then finished with an additional white powder coat layer for added protection, visibility and good looks.
- + Regulation size goal is made from a rolled 18 mm solid steel bar (and not hollow tube)
- + New net attachment system for enhanced durability and safety
- + The goals are bolted to the post into internal nuts so there are no dangerous bolt protrusions out the back.
- + Includes our exclusive Wedgelock sleeve design, developed by engineers to reduce the movement of post when in the sleeve.
- + Supplied with sleeves and caps as standard inclusions, however can also be concreted directly into the ground.

Optional post padding is also available.
