

The Stadia multipurpose post system is a high quality and easy to handle all in one system catering for multiple sports off the one sports post.

- + The upright posts are made from high tensile aluminium
- + Posts weight only 11 kg per post for ease of handling.
- + Can be used with ground sleeves, or T bases is required
- + Net heights are adjusted by sliding aluminium rails
- + Net can be set at senior men's volleyball height, or tennis or anywhere in between (so suits all Volleyball heights and other sports as well).
- + The net tensioner incorporates a heavy duty, self-locking ratchet mechanism with a compression clutch brake type release.
- + High tensile nylon strap incorporated into winch for easy net attachment.
- + Available in pairs, or with common centre post option
- + Nets and post padding available on request
