

+ The goals are bolted to the post into internal nuts so there are no dangerous bolt protrusions out the back .

+ The regulation-size goal is constructed from a solid 18 mm rolled steel bar, not a hollow tube, and reinforced with ring braces for added strength.

+ New net attachment system for enhanced durability and safety

+ Utilising a Ø76mm steel upright for increased strength over other systems in exposed environments

+ A cost effective, heavy duty system, the Essentials Post system sets a new standard for Netball posts.

+ Galvanised steel for ultimate rust resistance, and then finished with an additional white powder coat layer for added protection, visibility and good looks.

- + Includes our exclusive Wedgelock sleeve design, developed by engineers to reduce the movement of post when in the sleeve.
- + Supplied with sleeves and caps as standard inclusions, however can also be concreted directly into the ground.
- + Optional post padding is also available.
